Welcome

Dear Potential Egg Donors/Surrogates

My name is Patricia Prescott, founder and owner of Assisted Parenthood Services. This program seeks to help Intended Parents match with Surrogates, Egg & Sperm Donors by recruiting and the psychological screening of surrogates, egg donors and sperm donors. We also facilitate the psychological screening and consultation of known donors and carriers.

Thank you for your interest in helping others build their families. Our agency is dedicated to matching donors/surrogates with intended parents, providing them with the opportunity to complete their family. We conduct comprehensive psychosocial and medical screenings for both donors/surrogates to ensure the health and well-being of all parties involved.

While the process is incredibly rewarding, it can also be challenging and stressful. Our goal is to support you every step of the way to ensure the best possible outcome for everyone involved. However, please note that we cannot guarantee that every participant will achieve parenthood.

Before applying to become a surrogate or donor, please carefully review the following requirements below. Your understanding and compliance with these guidelines are crucial to the success of the program. Thank you for your generosity and commitment.

The business of forming a family is not 8:00 am - 5:00 pm type of business. Monday through Friday; we are available 7 days a week 24 hours a day (for emergencies for current clients and surrogates only). Our email and WhatsApp are checked several times a day.

I can be reached 24/7 via email at **assistedparenhoodservices@gmail.com** or you may call 876-830-6017

Warm regards,

Patricia Prescott, PhD
CEO

Health Requirements:

Age Group:

- Between the ages of 21-42 years old.
- Have had at least one pregnancy and delivery.
- Have not had a past occurrence of serious pregnancy complications. Examples include toxemia, pre-eclampsia, preterm labor, incompetent cervix, and pregnancy-induced hypertension. We do not accept surrogates with a history of these complications.
- Do not have any health conditions that can be exacerbated by pregnancy.
- Have a healthy body mass index (BMI) below 33

Life Requirements:

- Do not use tobacco and have no exposure to second-hand tobacco use. Surrogate applicants must be tobacco-free for 12 months minimum before applying.
 - Live in a surrogacy friendly neighborhood. Living in an inner-city community would be deemed as unacceptable.
 - If you are not a citizen of the United States, you must have a Green Card and or Visa that is valid for the next three years.
 - No criminal history. Growing Generations does not accept surrogates who have been convicted of a felony or whose partner has been convicted of a felony.
 - Have a healthy body mass index (BMI) below 33
-

Financial Requirements:

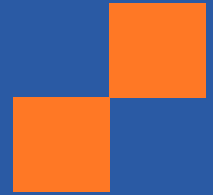

Finances:

- Financially stable. There can be no history of bankruptcy within the last year.
 - Surrogacy should not be a sole source of income for anyone interested in becoming a surrogate. We do regular household income verifications.
- Because of the nature of the surrogacy journey, these requirements are in place to ensure that prospective surrogates can have a rewarding experience that's safe for both them and the baby they will be carrying.
